SUMMARY

Four names ready to choose from.

Each one keeps the sense of place, reads like an established brand, and comes with an available **.com** — so the name, the website, and the web address all match from the first day.

CLEARED

All four names below came through a trademark screen against the U.S. federal register, and all four **.com** domains were confirmed available on September 6, 2026.

---	--	---	--

Your website is already built and ready to launch. The last piece is the name it launches under — and the web address that carries it. We started from a long list, then screened every candidate two ways: against the U.S. federal trademark register, and for real domain availability checked at the registry itself.

Several handsome names did not survive that screen. Any name built on **“Twelve”** runs into a registered hotel-and-residences brand, and **“Coquina,” “Aerie,” and “Sabal”** are each already claimed for lodging. The four on the next pages came through clean.

THE NAMES

The four options.

Any of the four works beautifully. They differ in feel — from search-first and classic to boutique and modern — so the right one is the one that sounds most like you.

OPTION 1 Singer Island Sky

The flagship. It puts the exact phrase guests search — **Singer Island** — right at the front, and **“Sky”** tells them, honestly, what sets this home apart: a top-floor perch with open Atlantic and Intracoastal views. Confident, modern, and effortless to say and to spell.

DOMAIN & FIT

[singerislandsky.com](#) · the search-first choice — it leads with the term travelers already type, so it is the strongest of the four for being found on Google.

OPTION 2 Singer Island Shores

The timeless one. **“Shores”** reads established and premium — the cadence of a beach property that has been *the* address for years. It carries the same strong local search term as the flagship, in a warmer, more classic register that ages well.

DOMAIN & FIT

[singerislandshores.com](#) · the classic, evergreen choice — reassuring and grown-up, the safe pick that never feels dated.

THE NAMES

The four options, continued.

OPTION 3 Blue Heron Sky

The most distinctive — and it is grounded in a real place. **Blue Heron** is the boulevard and bridge you cross onto the island, and a celebrated dive spot just offshore, so the name carries a genuine sense of arrival rather than a generic “escape.” “**Sky**” keeps the top-floor identity. Memorable, ownable, and unlike every other rental on the beach.

DOMAIN & FIT

[blueheronsky.com](#) · the boutique, story-rich choice — the one with the most personality and the easiest to build a brand around.

OPTION 4 Sky on Singer

The sleek one. Three short words that most sound like a brand — “**Singer**” for the place, “**Sky**” for the view. Quick to read, quick to remember, and made for a clean logo, a social handle, and word-of-mouth.

DOMAIN & FIT

[skyonsinger.com](#) · the modern, brand-forward choice — the most contemporary of the four and the shortest to type.

Whichever you choose

The story of the home — the top-floor perch, the panoramic ocean-to-Intracoastal views — stays front and center in the site’s words and photography. The name sets the marquee; the writing tells the story.

DUE DILIGENCE

ONE NOTE

This is a preliminary clearance (“knock-out”) screen — a search of the public trademark register and the live domain registry — not a formal legal opinion. Before the name is locked and brand assets are built around it, a full trademark clearance is the safe final step, and Cavmir is glad to coordinate it.

NEXT STEPS

- 1 Choose your name from the four options above.
- 2 Cavmir registers the matching .com in your name — the annual cost is nominal.
- 3 We finalize your wordmark and logo in the chosen name.
- 4 We roll the name across your website and listings so everything reads as one brand.

The last decision before launch

Your site is built and ready. This is the final choice before it goes live under a name that is memorable, available, and truly yours. Tell us which one speaks to you and we will take it from there.
